## About the family

Recently one of my co-workers took her two year old daughter Ansley-Kate in to Boston Children's Hospital due to some recent issues she had been having. She was diagnosed with stage 3 Ependymoma which has been removed. There is still a long road ahead for recovery which includes 2 months of radiation as well as physical therapy for her to be able to walk again. This hunt is to help raise funds for Ansley-Kate and her family as you can imagine the costs of treating this type of cancer can be astronomical, not to mention the time missed from work, travel to appointments and lodging during radiation treatment. Your support will mean so much in helping Ansley-Kate and her family to help get back on their feet.
